The world's smartest satellite phone

Thuraya SG-2520 is a breakthrough in satellite communication technology, offering you satellite connectivity in one powerful and stylish handset. As the world's smartest and lightest dual-mode satellite mobile phone (170g), Thuraya SG-2520 offers dynamic performance, inimitable style and innovative features. Thuraya SG-2520 expands the boundaries of communication, enabling you to stay connected.

Smart Phone Utilising cutting-edge satellite technology, Thuraya SG-2520 is an advanced smart phone that functions as a 3-in-1 integrated handset with satellite, GSM (Tri-band), and GPS connectivity. With Thuraya SG-2520, you get an unparalleled combination of quality and performance.

The satellite service option in your Thuraya SG-2520 allows you to roam across nearly two-thirds of the globe, from border to border, in urban areas and remote locations. It provides the advantages of easy mobility and seamless service beyond land-based telecommunication systems. When you are in Thuraya's coverage area, you can make and receive calls to and from any destination in the world. And when GSM networks are available, you can use your phone in GSM-mode. Additionally, the GPS Navigation feature in your Thuraya SG-2520 is a powerful tool for waypoint navigating and personal security.

Satellite phone with GSM, GPS and GmPRS

GSM Tri-band Thuraya SG-2520 is the only satellite Tri-band phone that provides connectivity in GSM mode across five continents. The Tri-band GSM feature allows operation on 900/1800/1900 MHz GSM networks, offering unparalleled flexibility across 140 countries in Asia, Africa, Australia, Europe and Middle East.

GPS Navigation Services Find locations and reach destinations quickly and safely with superior GPS waypoint and route tracking capabilities.

Display A 262,000-colour display (4.8cm) enables easy viewing of your handset's multimedia applications. The interface – resembling a desktop computer – allows user-friendly navigation of the phone's functions and services.

Mobile Satellite Internet Thuraya SG-2520 is GmPRS-enabled, with an embedded micro browser to facilitate convenient internet access. Download and upload data at speeds of up to 60/15 kbps using Thuraya's satellite network, anywhere within our coverage area.

Personal Touch Personalise the Thuraya SG-2520 interface to suit your taste. Choose from a wide variety of colour schemes and ringtones, personalise screensavers with your favourite images, and configure your menu navigation preferences.

Camera The phone's integrated 1.3-megapixel camera with video capabilities allows you to capture special moments and share them with your family, friends and colleagues as an email attachment or via MMS. This can be done from anywhere across the Thuraya network, in both GSM and satellite mode.

Languages Thuraya SG-2520 supports 12 menu-languages, including: Arabic, English, Farsi, French, German, Hindi, Italian, Portuguese, Russian, Spanish, Turkish and Urdu.

Interactive Applications Thuraya SG-2520 supports interactive applications based on Java (J2ME).

Additional Features The built-in organiser with calendar and alarm functions enables you to manage tasks and stay connected wherever you are within Thuraya's coverage area.
